Institutional Distinctiveness

INTEGRATION OF A REGIONAL LANGUAGE IN THE UNDERGRADUATE COURSE OF THE CURRICULUM:

THE PRACTICE OF TEACHING AND LEARNING IN THE SANTALI DEPARTMENT

The Santali Department of this institution came into being in 2007 which was just one year after the establishment of the College. It had the following objectives:

- Incorporating the study of a regional language in the form of a Course to be taken up by students in both Honours and General programs by following the University guidelines.
- Decentralizing the myth of 'the Centre' and 'the periphery' by granting similar value to Santali Language and Literature like all other subjects taught.
- Encouraging the non- tribal students to become aware of the rich cultural heritage of Santali Literature.

The College being located within a tribal area and thus named after two famous tribal freedom fighters named Turku Hansda (1907-1973) & Lapsa Hemram (1916-1986), it was inevitable that the language and literature of the tribal Communities be incorporated into the mainstream of the institution's curriculum so that it could ensure the abolition of a discriminating attitude towards tribal community and its culture through a regular practice of cohabitation between the tribal and non- tribal learners getting admitted in the institution. The unavailability of any other higher educational institution in the district to impart an undergraduate degree to the students of the University of Burdwan also became another major reason behind the establishment of the Santali department in the College.

- The General and Honours Course for the subject had been continuing since 2007 and 2008 respectively and the department had evolved largely since then.
- There have been several non- tribal students showing their interest in the subject over the past few years and they are allowed to become an integral part of the department through the mutual bonding shared by the teachers and students of the department.
- Teachers prefer teaching in a bilingual mode in the class due to the diversity in the student background.
- They learn to read and write in the *Oi Chiki* language and become well versed in the intricacies of the language during their study.
- The students of the department generally come from agrarian economical background due to which they can maintain their humble standard within the department.
- They are also made to participate in all cultural programs, extra- curricular activities like sports, quiz competitions, exhibitions etc. to enrich the institution with their shining presence.
- Regular internal examinations and departmental programs are conducted in all academic sessions until the country was hit by the global Pandemic in March 2020.
- A transparent system of providing scholarships is made available by the institution for the underprivileged tribal minority students of the department.
- Regular celebrations are not possible without the Santali department taking a leading role in the cultural programs specific to their culture and origin. The Fresher's welcome and Teachers' Day of the College celebrated in all academic sessions would have been incomplete without their support.
- Teachers also make sure that the tribal students can naturally adapt to the general ambience of the institution and feel being in a second home if they are in the institution.
- A special provision for the tribal students exists in the form of the Santali Boys Hostel in the College.

8. Conclusion:

The Santali department is highly successful as students have been able to overcome their barriers and out-stand their limitations by reaching out to the larger world by getting placed in further degrees as well as take part in research projects in higher educational institutions. There has also been an increase in the number of students in the department since 2007 and many students are pursuing Masters in Universities. Many students have also found placement according to their own qualification.

Several problems like the scarcity of fund available at our disposal, the low availability of books, the problem of proper reference material etc. have always been there to challenge the progress of the practice. Moreover, most of the students are first generation learners and come from economically poor background. The teachers of the institution are however able to overcome these issues through complete dedication and diligence throughout the year which is manifested in the happiness that the students spread by their presence in the institution.

TFLH Mahavidyalay

ABOUT THE SEMINAR; CONCEPT NOTE:

The Santals are the ethnic and indigenous people of India. They are related to the Proto-Australoid race. They live in the countries of South Asia like India, Bangladesh, Nepal and Bhutan. Their population is more than ten million. The language of the Santal community is Santali which belongs to the north Mundari group of language. The Santali language was constitutionally scheduled by the Government of India on 22nd December 2003. They have their own tradition, culture, folk- art, folk- dance, folk- music, oral- literature, written- literature etc. Nowadays the Santali language is studied at the pre-primary level, primary- level, schools, and universities and at Research level also. The languages have now become technologically developed and are now being used in Computer, Mobile, and Tabs etc.

ABOUT THE COLLEGE:

Our college under the Green Canopy of Shal & Mahuya forest, named after the two great tribal leaders of Birbhum, Turku Hansda & Lapsa Hembram. THLH Mahavidyalay was established on 1st August, 2006 with a view to catering higher education to the aspiring students of a wide area surrounding Mallarpur, Birbhum. As the area is populated by a considerable percentage of socio-economically backward people and minority classes, a huge number of students of this college are literally first generation learners. The college therefore cannot and do not avoid the responsibility of teaching a group of students lagging behind academically, socially and economically as well. With all these limitations our college, we want to claim, is not merely an addition of another number in the list of colleges in the district of Birbhum under the University of Burdwan. What we dream is that our students will acquire not degrees only but will improve their inner potentials also in order to contribute in the all round development of their State and Nation. THLH Mahavidyalay has been assessed and accredited by NAAC in October 2016 with B Grade.
