**A REPORT ON ADD-ON COURSE ON AEROBICS**

The Department of Physical Education Turku Hansda Lapsa Hemram Mahavidyalay organized an Add – on certificate course In Aerobics Fitness Program for students from 24<sup>th</sup> August to September, 2019 in room no 122. The enrollment was for 30 students based on first come first serve basis .Total 29 students enrolled, and all the students completed this course. The examination was conducted with practical and viva basis. The certificates were provided duly.

Aerobics is an excellent way to promote physical awareness, enhancement of cardiovascular fitness, and encouraging mass participation in physical activities. Through this course, students learned various aerobic exercises, dance routines, and techniques to improve their overall fitness levels. The program aimed to instill a culture of health and wellness among the student community. These initiatives contribute to the holistic development of students and foster a sense of well-being within the college community.

Overall, the Aerobics course provided students with an opportunity to stay active, maintain physical fitness, and adopt a healthy lifestyle. It reflects the department's commitment to promoting wellness and encouraging students to engage in regular physical activity.

Subject - Approval for an Add on Certificate Course Proposal on "Physics in Everyday Life"

Respected Sir,

I am writing to seek your approval for an add-on certificate course titled "Physics in Everyday Life" that we propose to introduce at our college. Physics is the foundation of our material world, and its principles govern countless aspects of our daily experiences. This course aims to bridge the gap between theoretical knowledge and practical application, fostering a deeper appreciation for physics beyond textbooks. The proposed course details is as follows.

**Course Title:** Physics in Everyday Life

**Duration:** 30 hours (Between 13/11/2019 to 26/11/2019)

**Objective:** To enhance students' understanding of the practical applications of physics in their daily lives.

**Target Audience:** Undergraduate students from various disciplines.

**Course Content:** (1) Introduction to fundamental physics concepts (2) Applications of physics in technology, transportation, communication, and health (3) Hands-on experiments and demonstrations.

**Lectures by:** (1) Amit Chandra Das (Assistant Professor, Department of Physics) (2) Buddhadeb Ghosh (SACT, Department of Physics) (3) Dr Washim Raja (Assistant Professor, Department of Chemistry) (4) Dr Sewli Chatterjee (Assistant Professor, Department of Mathematics) (5) Chandan Mandal (SACT, Department of Mathematics)

**Assessment:** Participants will receive a certificate upon successful completion of the course.

We kindly request your approval to initiate this course in the upcoming academic session. We believe it will enrich our students' learning experience and contribute to their holistic development.

## Meeting Resolution to Conduct an Add-On Course on "Physics in Everyday Life"

It is resolved by the Principal of THLH Mahavidyalay, on 09.11.2019, that an add-on course on "Physics in Everyday Life" will be conducted to investigate everyday physics, from household objects to weather patterns within 13/11/2019 to 26/11/2019.

1. The course shall cover the following topics:
  - o The basics of physics by understanding how everyday things work.
  - o Topics covered include Optics, Electricity, Magnetism, Thermodynamics, Gravitation and Sound.
  - o Hands-on experiments on few topics.
2. The course shall be open to all students and external participants who have a foundational understanding of Physics.
3. The course shall be conducted within the duration of 30 hours.
4. The institution shall allocate the necessary resources, including:
  - o Physics and computer laboratory with the required software
  - o Qualified instructors
  - o Learning materials and access to online resources
5. A nominal fee may be charged to cover the costs of materials and certification.
6. Upon successful completion, participants shall receive a certificate of completion.
7. The effectiveness of the course shall be evaluated through participant feedback and performance assessments, and improvements shall be made accordingly for future iterations.

This resolution is hereby adopted by Dr. Amit Kumar Chakrabarty, PRINCIPAL OF THLHM and shall be effective immediately upon its passage.

## Course Details

- **Course Title:** Add-on Certificate Course on Physics in Everyday Life.
- **Duration:** 30 hours
- **Course Date:** 13/11/2019 to 26/11/2019

- **Objectives:**

- Understand the fundamental principles of physics that underlie everyday experiences.
- Develop a conceptual understanding of key physical principles.
- Apply basic physics concepts to explain and predict simple situations encountered in daily life.
- Appreciate the interdisciplinary nature of physics.
- Cultivate critical thinking skills by analysing real-world scenarios.
- Understand how physics drives technological advancements.

- **Expected Outcomes:**

- Students will gain a deeper understanding of how physics concepts apply to everyday situations.
- Participants will develop basic problem-solving skills related to physics.
- Students will appreciate the interdisciplinary nature of physics.
- By studying physics in context, students will enhance their scientific literacy.
- They will be better equipped to critically evaluate scientific claims and understand real-world phenomena.
- Participants will gain practical insights into topics like transportation (speed, safety rules), sports (forces, motion), weather (global warming), and home electricity (appliances, safety).

- **Course Syllabus:**

- The Laws of Motion – skating physics, falling balls
- The Laws of Motion Part II – wind turbine, cars and collisions
- Mechanical Objects – carousels and roller coasters, seesaws
- Momentum Fluids – hurricanes, hot air balloons, helium balloons
- Heat and Phase Transition – woodstoves, insulation
- Thermodynamics – air conditioners and automobiles
- Electricity – lightning rods, air cleaners, photocopies and electrical currents
- Magnetism and electrodynamics – tape records, electric motors, hybrid car
- Electronics – audio amplifiers, computers and electrical circuits
- Electromagnetic Waves – radio and television, microwave ovens
- Light – sunlight, fluorescent light, lasers
- Optics – optical recording, CD, DVD Player
- Modern Physics – nuclear weapons and nuclear reactors, medical imaging
- Physics of Climate Change.

- **Justification:**

- (i) Physics is not just theoretical; it governs our daily lives. Understanding its practical applications enhances scientific literacy.
- (ii) This course bridges the gap between classroom physics and real-world phenomena encountered by students.

- **Benefits to Students:**

- (i) By exploring everyday scenarios, students develop critical thinking and problem-solving abilities.
- (ii) They learn to apply physics concepts to analyze situations encountered in their personal and professional lives.

- **Course Teachers:**

- (i) Amit Das, Assistant Professor, Department of Physics, THLH Mahavidyalay.
- (ii) Buddhadeb Ghosh, SACT, Department of Physics, THLH Mahavidyalay.
- (iii) Dr Sewli Chatterjee, Assistant Professor, THLH Mahavidyalay.

❖ Answer all the questions. Each question carries two marks.

1. Which of the following is an example of static friction in daily life?

- [A] Pushing a heavy box across the floor
- [B] Sliding down a playground slide
- [C] Riding a bicycle
- [D] Opening a door

Answer: [D] Opening a door

2. Why does a ball bounce back when it hits the ground?

- [A] Due to gravitational force
- [B] Due to elastic potential energy
- [C] Due to air resistance
- [D] Due to friction

Answer: [B] Due to elastic potential energy

3. Which type of energy conversion occurs when you turn on a flashlight?

- [A] Electrical to mechanical
- [B] Chemical to electrical
- [C] Electrical to light
- [D] Light to electrical

Answer: [C] Electrical to light

4. Why does a hot air balloon rise in the sky?

- [A] Due to buoyant force
- [B] Due to gravity
- [C] Due to air pressure
- [D] Due to friction

Answer: [A] Due to buoyant force

5. Which of the following materials is a good conductor of electricity?

Answer: [C] Copper

**6. What causes the rainbow to form after rain?**

[A] Reflection

[B] Refraction

[C] Dispersion

[D] Diffraction

Answer: [C] Dispersion

**7. Why does a pencil appear bent when partially submerged in water?**

[A] Due to refraction

[B] Due to reflection

[C] Due to diffraction

[D] Due to dispersion

Answer: [A] Due to refraction

**8. Which type of mirror is commonly used in makeup mirrors?**

[A] Convex mirror

[B] Concave mirror

[C] Plane mirror

[D] Spherical mirror

Answer: [B] Concave mirror

**9. Why does a car skid when brakes are applied suddenly?**

[A] Due to inertia

[B] Due to friction

[C] Due to air resistance

[D] Due to gravity

Answer: [B] Due to friction

**10. What type of energy conversion occurs in a windmill?**

[A] Mechanical to electrical

[B] Electrical to mechanical

[C] Wind to electrical

[D] Electrical to wind

Answer: [A] Mechanical to electrical

### Add-on/certificate course titled "Physics in Everyday Life"

#### ❖ Report:

The Physics Department organized an Add-on/Certificate Course on "Physics in Everyday Life" specifically tailored for undergraduate students. The course aimed to provide foundational knowledge of physics principles relevant to daily experiences. Topics covered included mechanics, thermodynamics, waves, optics, and magnetism. Students gained practical insights into real-world applications. The course enhanced problem-solving skills and fostered interdisciplinary learning. Overall, it empowered students with a deeper understanding of the natural world. The brief details of the course are given below.

- Course Title: Add-on/Certificate Course on Physics in Everyday Life.
- Duration: 30 hours
- Course Date: 13/11/2019 to 26/11/2019
- Course Teachers: Amit Das, Assistant Professor, Department of Physics, THLH Mahavidyalay; Buddhiadeb Ghosh, SACT, Department of Physics, THLH Mahavidyalay; Dr Sewli Chatterjee, Assistant Professor, THLH Mahavidyalay; Chandan Mondal SACT, Department of Mathematics, THLH Mahavidyalay; Dr Wasim Raja, Assistant Professor, Department of Chemistry, THLH Mahavidyalay.
- Number of Enrolled Participants: 12

#### ❖ Conclusion:

The "Physics in Everyday Life" course successfully bridged theory and practice, empowering students with a deeper understanding of the natural world. We believe that this knowledge will serve them well in their academic pursuits and future endeavors.

## ADD ON COURSE ON HUMAN RIGHTS EDUCATION

Department of  
Political Science

THLH Mahavidyalay

(14<sup>th</sup> November to 19<sup>th</sup> November)

Session: 2019-20

The issues of Human Rights are of utmost importance in the present society. Accordingly spreading the idea of Human Rights Education among all also has become important for protection and promotion of human rights. Human rights are inherent and integral part of every human life. The term 'Human Rights' refer to those rights

that are considered universal to humanity,

regardless of citizenship, residency, status, ethnicity, gender or other considerations. Supported by several international conventions and treaties including the UDHR 1948, the Human rights include political, economic, social and cultural rights such as right to life, liberty, education and equality before law, right of association, belief, free speech, information, religion, movement and nationality. The UN Decade for Human Rights Education (1995-2004) defined Human Rights Education, "a lifelong process by which people at all levels of development and in all strata of society learn respect for the dignity of others and the means and methods of ensuring that respect in all societies." Thus imparting knowledge on Human Rights Education will teach all to respect the dignity of each other and to promote a healthy, cooperative and peaceful life in society. It is also the duty of the government to recognize the claims of the people; their exclusive and inalienable rights. Thus the true essence of democratic society lies with the recognition of these human rights as universal rights. This certificate course on Human Rights Education aims to develop the knowledge, skills and values of human rights to the young generations. Human Rights Education is a subject that aims to protect, promote and popularize the concept of Human Rights among all sections of society.

### Course Objective

- >To help the learners for promoting respect for human rights of all individuals
- >To impart the knowledge, skills and values of Human Rights to all the learners
- >To aware the learners about the democratic values of rights, equality, justice, tolerance, humanity etc.
- >To sensitize the learners about overcoming the problems of human rights violation by any person, authority, agencies, institutions and

After completion of this certificate course the participants will-

- >Learn the basic perspective of Human Rights.
- >Gather information about the norms, procedure and mechanism against violations of Human Rights.
- >Enable to participate freely and effectively in a democratic process.
- >Develop the knowledge and skills of protecting and promoting Human Right and preventing the violation of rights
