## Criterion 7 - Institutional Values and Best Practices

### 7.1 Institutional Values and Social Responsibilities

#### 7.1.2 The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and nondegradable waste
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

Documents: Reports of activities for the implementation of the initiatives for session 2022-23

## Conclusion Report and Outcome Of the Event

The Green Campus Committee is proud to present the outcome and conclusion report for the Environment Day celebration held on [Insert Date]. The event was a resounding success, with enthusiastic participation from students, faculty, and staff members.

### Outcomes:

1. Tree Planting Ceremony:
  - A total of 15 trees were planted across the campus, contributing to our goal of creating a greener and more sustainable environment.
  - Participants included students from various departments, demonstrating a collective effort towards ecological conservation.
2. Campus Clean-Up Drive:
  - The drive resulted in the collection of 8 kilograms of waste, which was properly segregated and disposed of, emphasizing the importance of cleanliness and waste management.
  - The initiative also raised awareness about the impact of littering and the benefits of recycling.

### Conclusion:

The Environment Day celebration not only brought our college community together but also instilled a sense of responsibility towards the environment. The active engagement and positive feedback from participants indicate a growing consciousness about environmental issues and a willingness to take action.

## Conclusion Report and Outcome Of the Event

The Plastic Free Day celebration was a resounding success, thanks to the active participation of students, faculty, and staff. The event aimed to raise awareness about the harmful effects of plastic pollution and promote sustainable practices within our campus community.

### Program Outcome:

#### 1. Increased Awareness:

- Through informative sessions, workshops, and interactive displays, participants gained a deeper understanding of the environmental impact of plastic waste.
- Students learned about alternatives to single-use plastics and pledged to reduce their plastic consumption.

#### 2. Behavior Change:

- The Plastic Free Day encouraged students to adopt eco-friendly habits. Many committed to using reusable water bottles, bags, and containers.
- Cafeteria staff implemented measures to reduce plastic cutlery and packaging.

#### 3. Collaboration:

- The event fostered collaboration among various campus groups, including the Green Campus Committee, student organizations, and academic departments.
- Students actively engaged in discussions, shared ideas, and volunteered for future initiatives.

#### 4. Resource Management:

- The committee successfully managed event resources, including venue arrangements, promotional materials, and logistics.
- Waste segregation bins were strategically placed, promoting responsible disposal.

#### 5. Positive Impact:

- Plastic Free Day had a positive impact on campus culture. Students expressed enthusiasm for ongoing efforts to minimize plastic use.
- The event reinforced our commitment to environmental stewardship.

### Next Steps:

#### 1. Follow-Up Workshops:

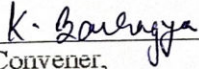

- Organize workshops on recycling, composting, and upcycling to sustain the momentum generated by the event.
- Continue educating students about the long-term benefits of reducing plastic waste.

#### 2. Community Engagement:

- Extend our outreach beyond the campus. Partner with local communities and organizations to promote plastic-free living.

### Acknowledgments:

We extend our heartfelt gratitude to all participants, volunteers, and sponsors who made the Plastic Free Day celebration a memorable and impactful event.

## Conclusion Report and Outcome Of the Event

The Green Campus Committee successfully conducted a comprehensive survey to evaluate the current state of environmental management at our college. The survey focused on four key areas: waste management, energy conservation, water preservation, and greenery enhancement. The initiative aimed to identify areas for improvement and engage the student body in sustainable practices.

### Key Findings

- **Waste Management:** The survey revealed that while there are adequate waste bins around the campus, recycling practices are not widely adopted. There is a need for better segregation of waste and increased awareness of recycling benefits.
- **Energy Conservation:** The findings indicated that a significant amount of energy could be saved by optimizing lighting and air conditioning usage, especially during off-peak hours.
- **Water Preservation:** The survey identified several leaky faucets and inefficient water usage in landscaping. There is potential for water conservation through the installation of low-flow fixtures and rainwater harvesting systems.
- **Greenery Enhancement:** The campus has a good amount of green space, but there are opportunities to increase biodiversity and create more green zones.

### Recommendations

Based on the survey results, the committee proposes the following actions:

- Implement a campus-wide recycling program with clear guidelines and proper facilities.
- Conduct energy audits to identify areas for efficiency improvements and implement a campus-wide energy-saving campaign.
- Install water-saving devices and repair existing fixtures to reduce water wastage.
- Develop a greenery enhancement plan that includes planting native species and creating additional green spaces.

### Outcome

The college administration has acknowledged the survey findings and expressed support for the proposed recommendations. A task force will be formed to oversee the implementation of the initiatives, with the Green Campus Committee playing a key role in monitoring progress and ensuring the successful execution of the sustainability plan.

### Conclusion

The survey has provided valuable insights into the environmental management of our college. It has also successfully engaged students in sustainability efforts, fostering a culture of environmental responsibility. The Green Campus Committee is committed to working with the college administration to implement the recommended actions and continue to promote a sustainable campus environment.

## Conclusion Report and Outcome Of the Event

The Green Campus Committee successfully organized an awareness program on reusable waste management with active participation from students, faculty, and staff. The program aimed to educate and inspire our college community to adopt sustainable practices and reduce our environmental impact.

### 1. Engaging Sessions:

- Participants learned about the environmental consequences of excessive waste generation and the role of individuals in mitigating these effects.
- Best practices for reusing materials, minimizing single-use plastics, and proper waste segregation were discussed.

### 2. Interactive Discussions:

- Attendees actively participated in discussions, sharing personal experiences and practical tips.
- Questions related to waste reduction, recycling, and composting were addressed by our expert speakers.

### 3. Waste Survey:

- The survey was distributed among participants to assess their current waste management practices.
- Preliminary data collection will guide future initiatives and help tailor our efforts to specific needs.

### Outcomes:

- Participants gained a deeper understanding of the impact of waste on the environment.
- Many expressed a commitment to making conscious choices to reduce waste in their daily lives.
- Students pledged to:
  - Use reusable water bottles and containers.
  - Avoid single-use plastics (straws, bags, etc.).
  - Participate in campus-wide recycling programs.

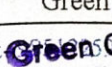

### Conclusion:

The Green Campus Committee acknowledges the positive response from the college community. We are encouraged by the enthusiasm shown during the program and commit to the following:

- We will organize workshops to delve deeper into specific waste reduction strategies.
- Topics will include composting, upcycling, and responsible e-waste disposal.
- Posters, social media content, and campus events will keep the momentum alive.
- We will collaborate with various departments to integrate sustainable practices into the curriculum.

The Green Campus Committee extends its gratitude to all participants, speakers, and volunteers.

## Conclusion Report and Outcome

*Of the Event*

As the Green Campus Committee, we successfully observed "No Smoking Day" on [insert date]. This initiative aimed to create awareness about the harmful effects of smoking and promote a smoke-free environment on our campus. Here are the key outcomes and conclusions:

### Outcomes:

1. Increased awareness about smoking hazards.
2. Reduced smoking incidents on campus.
3. Strengthened commitment to a smoke-free environment.
4. Improved overall air quality and cleanliness.

### Conclusion

- We conducted awareness campaigns through posters, flyers, and social media graphics. These materials emphasized the risks of smoking, second-hand smoke, and the benefits of a smoke-free campus.
- The response from students, faculty, and staff was positive, and many actively participated in sharing the campaign messages.
- A campus-wide pledge drive encouraged individuals to commit to a smoke-free lifestyle. Many students and staff members pledged to quit smoking or support others in their journey.
- Pledge cards were displayed prominently across campus.
- We reinforced smoke-free zones by placing clear signage near entrances, common areas, and designated spots.
- Security personnel monitored compliance and politely reminded individuals not to smoke in prohibited areas.
- We plan to continue promoting smoke-free habits beyond "No Smoking Day." Regular reminders, educational sessions, and collaboration with student organizations will be essential.
- Monitoring and evaluating the long-term impact of our efforts will guide future initiatives.

In conclusion, our collective efforts made "No Smoking Day" a success. Let's continue working together to create a healthier and more sustainable campus for everyone.

## Conclusion Report and Outcome Of the Event

As the Convener of the Green Campus Committee, it is with great pleasure that I present the conclusion report and outcomes of the "Orchard Oasis" campaign.

**Campaign Overview:** The "Orchard Oasis" campaign was initiated with the objective of cultivating fruit trees across our college campus. The campaign aimed to enhance biodiversity, provide fresh fruits, create shaded areas, and contribute to environmental sustainability.

**Program Execution:** The campaign was launched on Feb 20, 2023. Throughout the duration, we witnessed enthusiastic participation from students, faculty, and staff members. The plantation drive involved the planting of various fruit trees, including mango, guava, lemon, and papaya.

### Outcomes:

- A total of 15 fruit trees were successfully planted.
- The campaign received overwhelming support, with 20 volunteers participating.

### Conclusion:

The "Orchard Oasis" campaign has been a resounding success. The newly planted trees are thriving and promise to yield fruits in the coming years. The campaign has not only beautified our campus but also instilled a sense of environmental responsibility among the college community.

## Conclusion Report and Outcome Of the Event

In conclusion, the college's Green Campus Committee has made significant strides in the modifications and beautification of the medicinal plant garden. The systematic execution of green environment initiatives has not only maintained biodiversity but also ensured a pollution-free environment within the campus. The medicinal garden has been well-maintained by the combined efforts of gardeners, departmental teachers, and students, contributing to the campus's green cover.

The college observed 'Banomahotsav' and World Environment Day, promoting awareness and encouraging student participation in tree plantation. The NSS organized campus cleanliness drives and prepared organic manures for soil enrichment of the medicinal garden. The 'No plastic zone' initiative and the use of renewable energy, such as the installation of a Solar PV Plant, have furthered the college's commitment to sustainability.

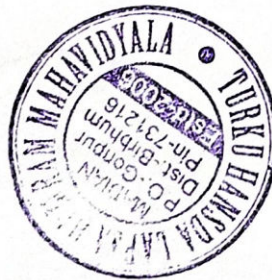

The Echo Club and the Physical Maintenance as well as Green Campus committee have worked tirelessly towards campus maintenance and beautification.

Overall, the college's dedication to creating a green and sustainable campus is commendable, and the medicinal plant garden stands as a testament to these efforts, enhancing the aesthetic and ecological value of the campus.

## Conclusion Report and Outcome Of the Event

The Biodiversity Day Observation Program conducted by the Green Campus Committee aimed to explore and document the rich biodiversity within our campus. Through guided nature walks, interactive sessions, and species identification activities, participants had the opportunity to connect with nature and deepen their understanding of local ecosystems.

### Activities and Observations

- Our naturalists provided field guides, helping participants identify local plants, insects, and birds.
- Participants learned about the role of each species in maintaining ecological balance.
- Bird feeder setup: Participants assembled simple bird feeders using recycled materials.
- Insect habitat creation: Small insect hotels were built to provide shelter for pollinators.

### Key Findings

- The *Dendrobium campusensis* orchid is endemic to our campus and requires conservation efforts.
- Participants documented its location for future monitoring.
- Over 50 students participated, demonstrating a keen interest in environmental activities.
- Many expressed a desire to continue exploring nature beyond this program.

### Conclusion

The Biodiversity Observation Program was a success, fostering a deeper appreciation for our campus's natural heritage. Moving forward, we recommend:

- Regular biodiversity surveys to monitor changes over time.
- Educational workshops on native species and conservation.
- Collaboration with other departments for larger-scale initiatives.

We extend our gratitude to all participants, naturalists, and volunteers who made this program possible.

## Conclusion Report and Outcome Of the Event

The "Unplug for the Planet" awareness program, initiated by the Green Campus Committee of THLH Mahavidyalay, was successfully conducted on [Date of Event]. The program aimed to educate the college community about the importance of energy conservation by turning off unused electrical appliances.

### Objectives:

- To raise awareness about the impact of energy consumption on the environment.
- To encourage the adoption of energy-saving practices among students and staff.
- To conduct a survey assessing current energy usage and identify areas for improvement.
- Interactive sessions and workshops on energy conservation.
- Distribution of informative materials and guidelines for reducing energy consumption.
- Practical demonstrations of the benefits of unplugging appliances.

### Outcomes:

- Increased awareness among participants about the environmental benefits of energy conservation.
- Positive feedback from students and staff, indicating a willingness to change their energy usage habits.
- A significant number of pledges from participants to actively "unplug" and save energy.

### Survey Results:

- The survey revealed that 80% of the college community regularly leaves appliances on standby mode.
- 3% of respondents were unaware of the energy consumed by appliances when not in active use.
- The survey identified College Campus as key targets for energy-saving measures.

### Conclusion:

The "Unplug for the Planet" awareness program has been a resounding success, with the Green Campus Committee achieving its objectives of spreading knowledge and fostering a culture of sustainability within [Your College Name]. The enthusiasm and commitment shown by the participants are commendable and set the foundation for ongoing efforts to reduce our environmental footprint.

The committee resolves to continue its work, utilizing the insights gained from the survey to implement effective energy-saving strategies. We are optimistic that the changes initiated by this program will lead to a greener, more energy-efficient campus.

We extend our heartfelt thanks to all who contributed to the success of this program and look forward to your continued support in our future endeavours.

## Conclusion Report and Outcome *Of the Event*

The Green Campus Committee successfully organized "Wheels Off Day", an initiative aimed at promoting environmental sustainability and reducing the carbon footprint on campus.

### Objectives:

- To encourage the college community to refrain from using vehicles for a day.
- To raise awareness about the environmental impact of vehicular emissions.
- To foster a culture of sustainability within the college.

### Outcomes:

- A significant reduction in vehicle usage on campus was observed, with many students and staff opting for alternative modes of transportation such as walking, cycling, or carpooling.
- The awareness campaigns led to increased engagement on social media, with students sharing their experiences and commitment to the cause.
- Feedback collected from participants was overwhelmingly positive, with many expressing a desire to continue the practice beyond the designated day.

### Challenges:

- Some logistical issues were encountered, such as the need for additional bicycle parking spaces.
- Ensuring consistent participation across all departments remains a challenge.

### Recommendations:

- To address the parking issue, the committee recommends the installation of new bicycle racks at strategic locations on campus.
- To maintain momentum, the committee suggests organizing monthly "Wheels Off Day" events and incorporating them into the college's official calendar.

### Conclusion:

"Wheels Off Day" was a resounding success, demonstrating the college community's willingness to embrace sustainable practices. The Green Campus Committee is committed to building on this success and exploring further initiatives to promote environmental stewardship.

## Conclusion Report and Outcome Of the Event

### Conclusion Report:

The awareness program titled "Blossoms of Healing: Discovering Medicinal Herbs" was successfully conducted by the Green Campus Committee at our college. The program aimed to create awareness about the value of medicinal plants, their traditional and modern uses, and strategies for conservation.

1. The program included the following sessions:
  - Introduction: The convener provided an overview of the importance of medicinal herbs.
  - Exhibition: A display of different medicinal herbs and their healing properties.
  - Q&A Session: Participants engaged in interactive discussions.
2. Key Takeaways:
  - Participants learned about the significance of medicinal plants in promoting health and well-being.
  - Traditional knowledge and modern research findings were shared.
  - Strategies for sustainable practices and conservation were discussed.

### Outcomes:

1. The program successfully raised awareness among students, faculty, and staff about the importance of preserving medicinal plant biodiversity.
2. Participants interacted with experts and practitioners, fostering collaboration and knowledge exchange.
3. Attendees expressed their commitment to conserving medicinal herbs and promoting sustainable practices.

## Conclusion Report and Outcome *Of the Event*

The Green Campus Committee is proud to present the outcome and conclusion report for the Environment Day celebration held on [Insert Date]. The event was a resounding success, with enthusiastic participation from students, faculty, and staff members.

### Outcomes:

#### 1. Tree Planting Ceremony:

- A total of 14 trees were planted across the campus, contributing to our goal of creating a greener and more sustainable environment.
- Participants included students from various departments, demonstrating a collective effort towards ecological conservation.

#### 2. Campus Clean-Up Drive:

- The drive resulted in the collection of 7 kilograms of waste, which was properly segregated and disposed of, emphasizing the importance of cleanliness and waste management.
- The initiative also raised awareness about the impact of littering and the benefits of recycling.

### Conclusion:

The Environment Day celebration not only brought our college community together but also instilled a sense of responsibility towards the environment. The active engagement and positive feedback from participants indicate a growing consciousness about environmental issues and a willingness to take action.
